Proposed Amended Rules and Objectives

The proposed amendments were developed to comply with federal Clean Air Act's Most Stringent Measure requirements and to implement a control measure (BCM-10 – Emission Reductions from Direct Land Application of Chipped and Ground Uncomposted Greenwaste) from the South Coast Air Basin Attainment Plan for the 2012 Annual PM2.5 Standard. PAR 1133 restricts the supply of uncomposted greenwaste for direct land application to certain operations or with certain techniques to reduce emissions of volatile organic compounds (VOC) and ammonia. In addition, PAR 1133.2 requires certain legacy co-composting operations to begin to use best management practices at their operations. The proposed amendments also lower exemption limits, further reducing potential VOC and ammonia emissions. Purpose of This Meeting
The South Coast Air Quality Management District (South Coast AQMD) has scheduled a Public Workshop to present and solicit information and suggestions from the public on Proposed Amended Rule 1138 – Control of Emissions from Restaurant Operations (PAR 1138), which is scheduled to be considered for adoption at a Public Hearing before the South Coast AQMD Governing Board on September 5, 2025 (subject to change).

Background
Rule 1138 – Control of Emissions from Restaurant Operations, was adopted in 1997 and only applies to chain-driven charbroilers used in commercial cooking operations. Rule 1138 requires owners and operators of chain-driven charbroilers used in commercial cooking operations. Rule 1138 requires owners and operators of chain-driven charbroilers used in install and operate emission control equipment that meets minimum control efficiency as certified by the South Coast AQMD. Chain-driven charbroilers contribute to direct emissions of particulate matter with a diameter of 2.5 micrometers or less (PMZ.5) in the air. Due to not meeting the 2012 Annual PMZ.5 National Ambient Air Quality Standard,

the federal Clean Air Act requires South Coast AOMD rules to be no less stringent than rules anywhere else in the country. Staff identified that two other air quality agencies (Bay Area Air District and San Joaquin Valley Air Pollution Control District) have lower exemption thresholds than Rule 1138.

Charbroiler owners or operators are also separately required to submit equipment information to the South Coast AQMD per Rule 222 – Filing Requirements for Specific Emission Sources Not Requiring a Written Permit Pursuant to Regulation II. More information on the Rule 222 filing program is available at https://www.agmd.gov/home/permits/rule-222-filing-program.
No amendments to Rule 222 are currently being proposed.

Objectives of Proposed Amended Rule The primary objective of PAR 1138 is to comply with federal Clean Air Act requirements to assist in complying with the South Coast Air Basin Attainment Plan for the 2012 PM2.5 Standard. PAR 1138 will lower the exemption threshold Charbroiler owners or operators are also

Plan for the 2012 PM2.5 Standard. PAR 1138 will lower the exemption threshold to be consistent with requirements from other air quality agencies. The threshold is proposed to go from 875 pounds to less than 400 pounds of meat cooked per week, or alternatively, less than 10,800 pounds of meat cooked per year while maintaining weekly meat throughput at below 875 pounds. This requirement would go into effect September 5, 2026. The proposal will also make minor administrative edits to effect September 5, 2026. The proposal will also make minor administrative edits to remove existing language in Rule 1138 for requirements with past applicability dates, and clarify that chain-driven charbroilers operating below exemption thresholds need to file such information through Rule 222

If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on this property.
